

Aims

ITIC – Instituto Técnico para a Indústria da Construção (Technical Institute for the Construction Industry) offers a wide range of services, such as the development of both technical and scientific activities in the Construction Industry field in order to improve economic analysis, technological innovation and the management and productivity of construction firms.

Status

ITIC is a private and non-profit institute. Its members are different agents involved in the Portuguese Construction Industry, such as universities, professional bodies, and construction firms and materials producers.

Organisation

ITIC structure relies on three main departments:
Economic and Management Studies;
Quality Methodologies;
Training.

Staff

ITIC's activities are carried out by a multidisciplinary team, including economists, engineers and legal advisors.

Funding

ITIC is partially financed by its members. However, the major part of its funds is raised through contract fees with private firms and public bodies.

Activities

ITIC undertakes technical and economic studies within the Construction sector. Our activities are set to meet the needs of construction firms through technical support to

reinforce management, productivity and quality patterns and therefore issue economical and technical reports, and ensure the implementation of Quality Systems and Methodologies.

We produce estimates and forecasts for the Construction industry based on macroeconomic analysis and field work. ITIC' specialists base their work on accurate and proven methodologies. ITIC also aims to establish and reinforce technical and scientific relationships between Portuguese and foreign entities within the Construction industry.

ITIC organizes national and international conferences, seminars, workshops and lectures. ITIC is prepared to provide a wide range of:

- Economic and statistical analysis;
- Construction Industry forecasting;
- Construction Market analysis.
