

100th EUROCONSTRUCT CONFERENCE

Paris – 24th and 25th November 2025

European construction market forecasts to 2028

Special theme

Reinventing the construction industry

Hosted by
IBDO

About the conference

- The 100th EUROCONSTRUCT-Conference is part of a biannual series that unites top economists, analysts, construction experts and industry professionals.
- Join us to celebrate the 100th edition!
Receive an expert-led update on the European macroeconomic landscape and the construction market outlook by sector, covering the period up to 2028.
- To mark this 100th edition, two roundtable discussions will address the special theme focusing on the reinvention of the construction industry during a period of structural change.
- The conference will be held at Les Salons Hoche, 9 Avenue Hoche, 75008 Paris.
- Kick off your experience with a guided tour of a historic Parisian site, followed by an evening of networking.

Venue: **Les Salons Hoche**

What to expect

IN-DEPTH EXPERTISE

Join the speakers and discussants to learn more about the latest trends in European construction and the influencing factors behind them. Benefit from our long history and in-depth regional and sectoral expertise.

PRACTICAL BENEFITS

Engage with experts and industry leaders on the topics which matter most to you. There will be plenty of time for this in the numerous discussion panels throughout the conference.

INSIGHTFUL TAKEAWAY

Power up your network, meet potential business partners, and have a closer look at our network and the people behind it.

All participants will receive our comprehensive EUROCONSTRUCT reports*

* The type of reports depends on the conference package chosen

About EUROCONSTRUCT

EUROCONSTRUCT is an independent construction market forecasting network established in the mid-1970s by specialised research institutes and consulting organisations as a construction analysis and forecasting study group. It has since expanded from the core group to include almost all Western European countries and several Eastern European states.
